

Request for Quotation

MCW Engineering Estimates

The Town of South River is currently seeking quotes for the provision of engineering estimates for the 2027-2028 MCW project applications to extend water services to the road:

Springfield Road from Civic # 115 to 251

Estimates must be Class D (or better). A Class D estimate is typically based on a broad concept and/or preliminary functional design and typically represents the project cost within $\pm 30\%$ accuracy. Estimates must comply with the requirement specified in the attached Municipal Infrastructure Funding Application Guideline. A KML file for each project is also required.
